OC Boat Allocation and Hauling

Policy No. 2019-01

Adopted April 13, 2019

Amended May 5th, 2019

1. The organization of all boat allocations for Club Teams and hauling of boats to races will be coordinated directly through the OC Director and/or Assistant OC Director.
2. If additional boats are required from another Club in order for a FVPC Team to race at an event, the coordination of boats from other clubs will also be coordinated through the OC Director and/or Assistant OC Director.
3. All OC Teams requiring a boat for a specific race will need to direct their request to the OC Director and/or Assistant OC Director a minimum of 30 days prior to the scheduled race event, and then the OC director/Assistant Director will arrange a boat for that team.
4. Hauling of boats to and from race events will only be done by member's approved by the Executive Committee. These club members will be put on a contact list to be posted in the clubhouse. Members hauling boats will do so in rotation throughout the racing season.
5. Each Team using club boats for races will provide at least 2 members to assist with the rigging, unrigging, loading and unloading of boats both prior to and after the race event. Teams who do not provide such assistance could be sanctioned up to and including loss of privilege for the use of FVPC boats for races for the remainder of the race season.
6. Members/Teams who take it upon themselves to organize the use of boats for races not assigned to them or coordinate boats through another club without the expressed permission from the OC Director and/or Assistant OC Director could be sanctioned up to and including loss of privilege for the use of FVPC boats for races for the remainder of the race season.
7. If there are more teams than boats for a specific event, names will be drawn for who gets the use of the club boats and who will rent a boat (rentals to be arranged by OC directors). The team drawn will not be in the draw for the next race. All teams attending will split the cost for the rental boat(s).

8. If FVPC boats are not going to an event the OC Directors will arrange boats for the teams attending.
9. When boats are being hauled for races, paddlers will pay \$10 each, which is to be collected by their team Captain when race registration fees are collected. The team Captain will give this to the FVPC treasurer.
10. Any approved club member that hauls the trailer and boats is eligible to submit to the FVPC treasurer for reimbursement at a rate of \$0.55 per kilometer.
11. Any CORA grants received for transportation of boats will go to the FVPC treasurer to deposit.
